

CryptoGuard awarded Gasell and Super Company of 2017

Motala, 3 November 2017

CryptoGuard has been awarded the prestigious nomination Gasell Company and also Super Company ranked by the Swedish business magazines Dagens Industri and Veckans Affärer together with Bisnode. These two nominations are both proofs of being one of Sweden's fastest growing and profitable companies.

The criteria for the Gasell nomination include consistent, organic and profitable growth over a minimum of four years. To be nominated Super Company, a company need to meet a number of tough criteria in matter of growth, profit, revenue, effectivity, capital structure and financing. Only one per thousand of the Swedish companies live up to the requirements, and the number of companies varies from year to year. This year there were 641 Swedish companies who qualified to these criteria.

Kjell Carlswärd, CEO of CryptoGuard comments *"We are very proud to be nominated for both of these two nominations. I would like to thank our highly motivated team, and all of our customers and*

partners for making this possible. This proves that our hard work is paying off and that the interest in our products and solutions is growing even further."

About CryptoGuard

CryptoGuard is a leading developer and vendor of Conditional Access System (CAS) and Digital Rights Management (DRM) system for digital television. CryptoGuard uses a high-grade encryption scheme for its card-based and cardless solutions to meet the demands of service providers, broadcasters and operators. CryptoGuard's flexibility, adaptability and customization with a 'pay-as-you-grow' business model makes it a viable option for any size of operator to digitize their TV services and secure content revenues.

CryptoGuard was established in 2007 in Sweden and has since then been an accepted and recommended solution for DVB and IPTV encryption services all over the world. Currently, CryptoGuard CAS has been deployed in more than 40 countries with a number of national operators. CryptoGuard is well positioned with sales offices on four continents and with an extensive partner ecosystem.
